"Title 1 Problem of the Month"

3rd Grade and 4th Grade

Completed by _____'s family

Grade _____ Teacher _____

DUE: April _____

Mrs. Clevenger is filling eggs for the big Edgelea egg hunt. She is predicting about 150 students will come to the hunt. She plans to fill 800 eggs with two pieces of candy in each egg. She wants to also include 10 golden eggs with 5 pieces of candy in each egg. How many pieces of candy will Mrs. Clevenger need altogether?

Mrs. Clevenger bought 33 bags of candy. Each of the bags has 45 pieces of candy in them. Will she need to buy more bags of candy in order to fill ALL the eggs? _____ Explain your answer _____
